

David Wright is one of the leading program and project management professionals in Australia with excellent skills and very significant understanding in all aspects of project, program and portfolio management. He has won Australian national awards for his delivery, is highly recommended for his project advisory, assurance and mentoring and works closely with lead authors of the UK Government Cabinet Office products.

David holds a PMP (PMBOK®), PRINCE2® and AgilePM certifications and is highly proficient in the Programme (MSP) and Portfolio Standards. He also has a great working

knowledge of P3O®, P3M3® (having led the woG IT assessment in 2012), OPM3®, and MoP®. Dave is a Gateway Review Team Leader.

As President of PMI Queensland, David contributes to the direction of the largest global project management association. David is transforming the way in which PMIQ engages Queensland industry and he is overseeing its largest period of growth since establishment.

As Managing Director of QVC Solutions, a project, program and portfolio management specialist company since 2002, David sets out to help people in the project management profession.

In the last 12 months David has conducted nine formal Gateway and Gated reviews. In seven of these reviews, David was the Team Leader. At Stanwell, and after studying the documentation and conducting days of interviews, David was instrumental in making recommendations to change direction. His ability to be able to pose the right questions and decipher the evidence made his contribution invaluable. David was able to talk to the CEO and the project scheduler with the same clear, concise communication skills that have made him successful.

David has spent about 20 years in ICT over his career working for customer and vendor organisations and dealing with many procurement and contract negotiations.
