

Howard has over 25 years of project management experience across a broad set of industries and over 12 years as a project management training instructor. Howard is a certified Project Management Professional (PMP®) and holds a Masters Certificate in Project Management from the George Washington University.

He has shared his expertise as a project management trainer and consultant with major multinationals and government agencies at all organisational levels in Australasia, Asia-Pacific and Europe, and is a trusted advisor to numerous organisations on enterprise-wide project management frameworks.

Since 1997, Howard has conducted over 250 corporate project management training programs and workshops for over 60 organisations in 15 countries, including ABB, Alcatel-Lucent, Barclays, Cathay Pacific, Daimler Chrysler, Deutsche Bank, DHL, ExxonMobil, GE, Halliburton, HP, HSBC, JP Morgan, Microsoft, Morgan Stanley, Motorola, Nokia, Reuters, Shell, and the US Forces Korea.

He has delivered a wide range of courses spanning all aspects of project, program and portfolio management, and including specialist courses in risk management, troubled project recovery, PMP exam preparation and IT project management.

Howard has designed and developed numerous project management training programs, from fundamentals through to advanced level and covering both PRINCE2® and PMBOK® approaches. He has authored courses in Microsoft Project 2003, 2007 and 2010 and facilitated Microsoft Project Server implementations.

He has over 15 years experience in managing training products and services for the world's most recognised PM training providers and was a lead contributor to components of the Stanford Advanced Project Management curriculum.

Howard has coached project managers in several organisations, devised and facilitated project planning and strategy execution workshops, and developed and implemented project management methodologies for a variety of organisations.

Some notable engagements include the design and implementation of project, program and portfolio management processes and systems for Citibank, the Royal Flying Doctor Service (Qld), Singapore Stock Exchange and the Tsunami Relief effort under the Singapore Red Cross.

Recently, Howard was engaged as a lead contributor to the P3M3 project maturity assessments of various government departments conducted for the Queensland Government Chief Information Office, including the departments of Health, Education and Public Works.

Howard has a Bachelors in Science with Honours in Engineering and a Masters in International Business (MBA) from the Ecole Nationale des Ponts et Chaussees in Paris.
